

**2007-08 Multi-Year Accountability Agreement Report-Back for: Dominican**

As noted in the Multi-Year Accountability Agreement for Universities for 2006-07 to 2008-09 (MYAA), the government appreciates that implementing this and future agreements will be part of an evolutionary process which will incorporate maturing consensus on how to best measure and indicate access and quality. This will require a strong collaborative partnership between institutions and the Ministry of Training, Colleges and Universities.

This Multi-Year Accountability Agreement Report-Back Template has been designed to assist with the ministry's continuing efforts to measure the participation of students from under-represented groups, and as outlined in Appendix B (the Multi-Year Action Plan) of the MYAA, update the planned net new hires table, and the strategies and programs that will be used by your institution to participate in the Student Access Guarantee initiative.

Pursuant to the MYAA, the release of the full amount of your 2008-09 Accessibility to Higher Quality Education Fund<sup>1</sup> will be conditional on your institution confirming that it is on track for meeting its commitments, or the approval of an improvement plan by the ministry. The ministry will also use the completed Multi-Year Accountability Report-Back Template to review the progress made on the commitments outlined in your Multi-Year Action Plan. Based on this review, you may be required to submit an improvement plan to the ministry, developed in consultation with faculty, staff and students.

The information contained in this report-back template will also be used to inform the development of best practices and the creation of measures of system-wide results. These measures may be incorporated in revised requirements in future years to demonstrate system-wide improvements.

**A. ACCESS****Increased Participation of Under-Represented Students — Measurement**

To continue assisting with our efforts to develop a system measure that will track the participation of students from under-represented groups (Aboriginal, First Generation, Students with Disabilities) the ministry is again seeking information with respect to the number of students who are self-identifying as under-represented pursuant to the methodologies currently in place to measure these students at your institution. Please refer to the measurement methodologies outlined in your approved Multi-Year Action Plan to track these students, and provide the total number of students who have self-identified as a member of each of these groups. The ministry recognizes that these measurement methodologies may require students to self-identify, which may result in under-reporting.

Individual students may belong to more than one group. In the cells counting respondents for each under-represented group, do not adjust for this potential double-counting. To the extent that you are able to do so, eliminate any double-counting in the column, "Total Number Self-Identifying as Member of Under-represented Group".
